

Meltolit

Z-Flux Spezial

DIN EN ISO 9454-1 3241

DESCRIPTION

Meltolit Z-Flux Spezial is a very strong flux for soft soldering of high alloyed stainless steel like 316Ti, 318, Duplex etc. It's very high reactivity and flux residues needs to be cleaned after soldering with hot water, neutralizer or with ultrasonic cleaning. Overheating may lead to difficult to remove flux residues.

MATERIAL

Stainless steel, steel

PACKAGING

Size (ml)	100	500	
Item code	9P1117H001	9P1117H002	

Shelf life: If stored in tightly closed containers in room temperature, minimum 24 months
